Individual Contribution Record (template to submit)

Question	Student A – Primary	Student B – Primary	Joint
Q1	Exception design, hierarchy, catch order	Tests, stack trace, broad-catch demo	Implementation, design question
Q2	Hierarchy diagram, propagation path	Scenarios, chaining evidence	Implementation, conclusion
Q3	Debugging, experiments, logging	Design, correctness, suppressed exceptions	Both implementations, decision
Q4	Thread design, life-cycle	Experiments (10 runs, priority, daemon)	Implementation, conclusion
Q5	Race reproduction and explanation	Timing, strategies, locks	Implementation, decision
Q6	Producer–consumer	Deadlock analysis and prevention	Implementation, conclusion
Q7	Stage 2 design	Stage 3 implementation and measurement	Stage 1 and Stage 4

README.md checklist

Name, register number, Java version (`java -version`), compile/run commands per task (`javac X.java && java X`), short result note per task, one folder per task (Q1..Q7) with source, input files and screenshots, and at least one commit per task.
